ABOUT CVS 2026

The International Conference on Cardiology and Cardiovascular Science held from March 26-28, 2026 is a prestigious global platform that brings together renowned cardiologists, cardiovascular surgeons, researchers, healthcare professionals, and industry experts to explore the latest breakthroughs in cardiovascular medicine. This hybrid event, available both in-person in Singapore and virtually, ensures global participation, allowing attendees to engage in insightful discussions, share research findings, and collaborate on advancing heart health.

The conference will feature cutting-edge keynote sessions from leading experts, presenting the latest developments in cardiac care, minimally invasive interventions, and innovative treatment strategies. Scientific sessions will cover a wide range of topics, including heart failure management, coronary artery disease, electrophysiology, cardiac imaging, and regenerative medicine. A key highlight of the conference is the interactive panel discussions, where experts will address pressing challenges such as cardiovascular risk factors, precision medicine, and the impact of lifestyle on heart health. Additionally, case study presentations will provide real-world insights into complex cardiac cases and emerging treatment modalities.

With ample opportunities for networking, collaboration, and knowledge sharing, CVS 2026 aims to bridge the gap between research and clinical practice, fostering innovative solutions to improve cardiovascular care worldwide. Whether attending in person or virtually, participants will benefit from a highly engaging and informative experience that contributes to the advancement of global heart health.
